2. AN INTRODUCTION TO MÁLAGA

A city with a rich historic and cultural tradition, Málaga was founded by the Phoenicians around 800 B.C. and later colonised by Iberians, Greeks, Romans, Arabs and Christians. Its privileged position on the shores of the Mediterranean, its mild climate and friendliness of its inhabitants have all meant that the capital of the Costa del sol has, throughout its history, sustained excellent trade and cultural relations all over the world. Nowadays, Malaga is a modern, cosmopolitan and welcoming city with over 600.000 inhabitants, which has successfully developed its commercial, industrial and tourist sectors.

3. THE ESAD

La Escuela Superior de Arte Dramático de Málaga fue creada en 1947 como sección del Conservatorio Superior de Música de la ciudad y para continuar la tradición de la Academia de Declamación.

En 1988 se separan del Conservatorio Superior de Música las secciones de Arte Dramático y Danza, creándose la Escuela Superior de Arte Dramático y Danza.

Desde 1990 se imparte la especialidad de Dirección Escénica con carácter experimental por lo que es pionera en esta especialidad.

En la actualidad, la ESAD ofrece la posibilidad de estudiar dos especialidades con dos recorridos, Interpretación y Dirección de Escena y Dramaturgia. La LOGSE dio rango de verdaderos estudios superiores equiparando las titulaciones a las de licenciatura universitaria a todos los efectos.

El edificio que alberga la sede de la ESAD de Málaga se sitúa en pleno corazón de su ciudad con unas comunicaciones con toda la urbe inmejorables. Agrupado al campus universitario del Ejido. Con gran aparcamiento y fácil acceso. Está situada junto a nuestro teatro MANUEL DE FALLA.

4. PROGRAMMES FOR ERASMUS STUDENTS

The European Commission has Developed the European Credit Transfer System (ECTS) to help students make the most of their studies abroad. Basically, this system is a way of measuring and comparing learning achievements and transferring them from one institution to another. Likewise, it helps higher education institutions to enhance their co-operation with other institutions by improving access to information on foreign curricula and providing common procedures for academic recognition.

ECTS credits are a value allocated to modules to describe the student workload required to complete them. They reflect the quantity of work each course requires in relation to the total quantity of work required to complete a full year of academic at the institution, that is , lectures , practical work, seminars, private work – in the laboratory, library or at home – and examinations or other assessment activities.

ECTS credits are allocated to courses and are awarded to students who successfully complete those courses by passing examinations or other assessments. They are also allocated to practical placements and to thesis preparation when these academic activities form a part of a regular study programme both at home and at host institutions. The overall objective is to offer ECTS students flexible studyprogrammes with the aim of allowing them to make the most of their studiees al the host university and plan their own study programme.

The ESAD Málaga has already introduced a ECTS equivalence System. With this system 60 credits represent one year of study (in terms of workload); normally 30 credits are awarded every six months (a semester, in ESAD is a four-month) and 20 credits every term (a trimester).

Grading system

The grading system used by ESAD – Malaga is based on a numeric scale.

ESAD SYSTEM	ECTS GRADING SCALE
10	EXCELLENT
9	VERY GOOD
8-7	GOOD
6	SATISFACTORY
5	SUFFICIENT
4-3-2-1	FAIL

Spanish credit system

The Spanish Credit System only measures different teaching loads using temporal criteria. That is to say, one Spanish credit is equivalent to 10 teaching hours, regardless of their practical or theoretical nature. As a Spanish semester has 15 weeks, an ESAD six-credit module (60 hours) will have four allocated hours per week.

ESAD equivalence credit system

30 weeks = 60 credits

1 week = 30 hours = 2 credits

A module with 3 hours per week has 90 annual hours, will have 6 credits ECTS.
